

Tarjeta de Navidad

You will need:

- one copy, on card, of each of the two circles
- colouring pens
- scissors
- a brass paper fastener
- a pencil
- some plasticine

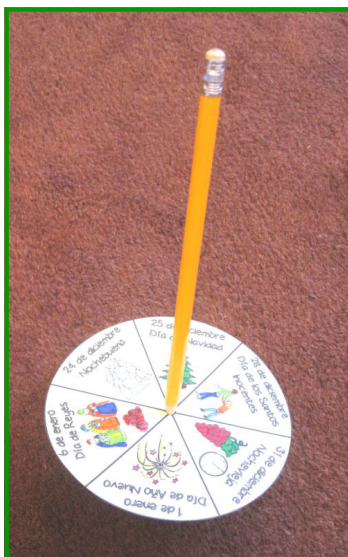

1. Colour in the pictures and writing on both circles.

You can add some Christmassy pictures to the big circle if you want.

2. Carefully cut out the two circles.

3. Put the ball of plasticine under the centre dot of one of the circles. Use the pencil to make a hole in the centre of the circle. Repeat with the other circle.

4. Thread the paper fastener through the large circle and then the small circle. Fasten it at the back.

You can then rotate the small circle to reveal all of the different celebrations that take place in Spain at Christmas time.

The circles are on the next page.
